Moodle and Collaborate Ultra Technical Requirements

Browser support

Moodle is compatible with any standards compliant web browser. We regularly test Moodle with the following browsers:

Desktop:

- Chrome
- Firefox
- Safari
- Edge
- Internet Explorer

Note: Moodle 3.9.x (LTS) will be the last version actively supporting Internet Explorer 11. Moodle 3.10 (to be released in November 2020) will NOT support Internet Explorer 11.

Mobile:

- Mobile Safari
- Google Chrome

For the best experience and optimum security, we recommend that you keep your browser up to date. https://www.whatsmybrowser.org/

Legacy browsers with known compatibility issues with Moodle 3.9:

- Internet Explorer 10 and below
- Safari 7 and below
